

ABOUT US

For over 50 years, Spunstrand® Inc. has furnished miles of underslab HVAC duct systems, above ground industrial and municipal duct systems and various special applications. Installations are in every state and foreign countries. All these years and miles of pipe have produced a multitude of reliable services available to engineers, contractors, and architects.

WHAT WE NEED

We are looking for experienced fabricators excited to join our manufacturing facility in Wallace Idaho. We are searching for a FRP Fabricator that will be responsible for fabrication of composite structures. This role requires the ability to understand FRP build specifications like Smacna and PS1569 and a strong ability to interpret and build from design drawings. Fabrication will include manifolding of FRP HVAC ducting, tank, scrubber, mist grease units for wastewater treatment plants. This position works closely with Factory leadership on new innovative ways to create better value for the customer and the company.

The right team member to help support our company mission which is:

Sustainable and controlled growth through superior FRP manufacturing, committed customer service, integrity, innovation, and product diversification.

WHAT OUR EMPLOYEE RECEIVE

Our company offers great benefits and competitive pay. This position is non-exempt, and hours are 7am to 3pm, Monday thru Friday (Summer hours are four 10's – 6am to 4pm). The salary range is \$18-\$22hr depending on experience. After a short introductory period you will be eligible for medical, dental, vision, disability Insurance, voluntary insurance such as accident, critical illness, and more!

We also provide a 401k retirement plan with company matching contributions. Along with our strong benefit package, employees are also eligible for ten (10) paid holidays and paid vacation that grows in time as you grow with the company. If this has intrigued your interest, please keep reading for job details.
